The CIVITAS Initiative is Co-Financed by the European Union

MIRACLES in Winchester

This pocket map is one of the many initiatives to be developed as part of the MIRACLES project in Winchester.

MIRACLES is part of the wider CIVITAS Initiative, which brings together 19 European cities, all committed to sustainable urban transport policy strategies. The overall aim of CIVITAS is to achieve a significant change in the modal split towards sustainable transport modes.

Winchester, Rome, Barcelona and Cork are all taking part in the MIRACLES project. All four cities are implementing innovative demonstration projects in order to achieve the following strategic goals:

- ★ Reduction of transport-related environmental impacts at the local level
- ★ Increased urban accessibility
- ★ Enhanced economic efficiency through better transport management
- ★ Overall improvement of citizens' quality of life

In Winchester these are being addressed through a number of demonstration schemes. These focus on public transport information and improvements, fleet vehicles, parking, cycling, freight, information systems, and publicity and awareness.

Further information on MIRACLES or CIVITAS can be found at: <http://www.winchestermiracles.org>
<http://www.civitas-initiative.org>
